## About ONTO Wallet

ONTO is a DID-based gateway for a seamless Web3 experience. The best all-in-one option for securely managing your identities, data, and digital assets, ONTO allows you to manage your crypto assets (including NFTs), perform cross-chain swaps, readily access a variety of dApps, and learn everything important in real time via ONTO news feed.

With ONTO Wallet, users can create an ONT ID, a decentralized digital identity that enables one-click multi-chain wallet address creation and management and fully protects their private data through an encryption algorithm. Users worldwide can download ONTO Wallet now via [onto.app](https://onto.app) or their mobile app store. Desktop users can also install [ONTO Web Wallet](#) for web browsers.

### One-liner

[ONTO](#) is a DID-based gateway for a seamless Web3 experience, allowing you to manage your digital identity, data, and assets all in one place.

## About ONTO Web Wallet

ONTO Web Wallet is a DID-based Web3 gateway for web browsers. This easy-to-use web extension supports a variety of digital assets and dApps on several blockchains including Ontology, Ethereum, Binance Smart Chain, Polygon and more. With ONTO Web Wallet, users can easily create their own decentralized digital identity (ONT ID) which enables the one-click creation and management of digital assets on multiple public chains and fully protects their private data through an encryption algorithm.

### One-liner

[ONTO Web Wallet](#) is a DID-based Web3 gateway for web browsers.
